

Retail

When it comes to retail tag and label applications such as product tags, price point tags and labels, and size wrap labels, Allen-Bailey Tag & Label can provide these and more. We will assist you in achieving sales by providing custom tags and labels that properly identify products, mark prices and promotions, and brand your company.

Allen-Bailey utilizes a large inventory of dies to make specially configured tags and labels for our customers. We also have a variety of metal eyelets and string attachments to customize the tag to any requirements.

Fasteners

Allen-Bailey is an authorized Distributor of Avery Dennison® Swiftach® Systems and cable ties. Fasteners are available in seven basic shapes with different options of material, strength, length and color, ranging from fine fabrics to heavy duty applications. Standard needle and pistol tools are also offered for easy tagging.

Labelers

The Avery Dennison® line of labelers for retail is also available through Allen-Bailey. We sell one, two, and three-line labelers along with their corresponding labels in a range of colors and pre-printed text. Unique label shapes, such as the serrated edge or banner design, grab the retail customers' attention and are easy to apply with promotional labels.
